

By electronically signing this acceptance, I confirm that all authors/contributors are represented and those listed have significantly contributed to this abstract or case.

I confirm that ISCD is granted permission to publish the abstract or case in the *Journal of Clinical Densitometry* and by other electronic or print means.

I confirm that the submitted abstract or case information and image(s) have not been published or submitted for publication elsewhere, and that all contributing authors have agreed to its submission and publication.

I confirm that, if this abstract or case is accepted, I transfer copyright of this material to the ISCD. I further give permission to the ISCD to retain rights to the case and image(s) for publication in a permanent Image Collection, to become available online and for use as a teaching tool to ISCD members and for ISCD products, programs and services.

I confirm that patient confidentiality has been respected, has been submitted with the patient's consent and that a signed consent form according to HIPAA regulations had been obtained and is on file.

All identifiable patient information, as defined by HIPAA, has been removed from all submitted material.

If an image of a physical finding is present (even if it is not identifiable), I confirm that the patient or their legal representative has signed a consent form for the image or images to be published for medical education, and that the consent form is on file.
